RECOMMENDATIONS

Dynamic Website

Together, we build your brand by creating an online space for you. We will build a dynamic website of your own where you can showcase all your books and give your readers an overview of who you are as an author and your other masterpieces. Here at ReadersMagnet, we can create a user-friendly website that will function as your brand profile and e-commerce portal.

Website Traffic Optimization

Compliance with search engine guidelines is an important factor for the success of your service page. With our Web Traffic Optimization (WTO), we analyze your website and give you tips on optimizing your site pages for long-term success in ushering people to your business website!

Social Media Marketing Service

Don't know who or where your readers are? As per Statista's report, millions of potential readers are on major social media networking sites. They could be active users on Facebook, YouTube, Twitter, or Pinterest. They are just waiting for you to pitch your story. ReadersMagnet knows social media for self-published authors better than any other independent book marketing and self-publishing companies.

RECOMMENDATIONS

Print Advertising Service

Print Advertising, the most widely used form of advertising, has helped thousands of businesses to market their products and services to a wide variety of consumers. Print Advertising has advantages any author can benefit from, such as maximizing book exposure.

Online Brand Publicity

From the term itself, Online Brand Publicity (OBP) focuses on making your brand visible to the public, specifically to online users. As an author, you would want your book to attract readers. With that, ReadersMagnet will help you with SEO, social media ads, and brand exposure.

Audiobook

Speak to your readers and share your story today through an audiobook. How would your book sound in crisp and clear audio? How would you like to listen to your own story? With audiobooks, ReadersMagnet helps you reach potential readers—such as commuters, gym-goers, joggers, and podcast listeners, among others—to enjoy your story.
